## Instructions

*Farm production* means the production of tangible personal property for sale by farming. *Farming* includes agriculture, horticulture, viniculture, viticulture, aquaculture, silviculture, or floriculture; stock, dairy, poultry, fruit, vegetable, fur bearing animal, graping, truck, and tree farming; ranching; operating nurseries, greenhouses, vineyard trellises, or other similar structures used primarily for the raising of agricultural, horticultural, vinicultural, viticultural, silvicultural, or floricultural commodities; operating orchards; raising, growing, and harvesting crops, livestock, and livestock products; and raising, growing, and harvesting woodland products, including but not limited to timber, logs, lumber, pulpwood, posts, and firewood. Farm production begins with the preparation of the soil and, in the case of animals, from the beginning of the life cycle. Production ceases when the product is ready for sale in its natural state; for farm products that will be converted into other products, farm production ceases when the normal development of the agricultural product has reached a stage where it will be processed or converted into a related product.

*Predominantly* means more than 50%, measured, for example, by hours of usage or by miles traveled.

*Commercial horse boarding operation* means an agricultural enterprise of at least 10 acres and boarding at least 10 horses, regardless of ownership, that receives \$10,000 or more in gross receipts annually from fees generated either through the boarding of horses or through the production for sale of crops, livestock, and livestock products, or through both such boarding and such production. **Under no circumstances shall this include an operation whose primary on-site function is horse racing.**

### To the seller:

If all entries have been completed and the certificate has been signed by the purchaser (or representative), you may accept the certificate in lieu of collecting tax on your sale of the property or services described in the box or boxes checked.

The tax exemptions for farmers and commercial horse boarding operators are limited to purchases of property and services used predominantly either in farm production or in a commercial horse boarding operation, or in both. Purchases of property or services not used predominantly either in farm production or in a commercial horse boarding operation, or in both, do not qualify for the exemption.

The farmer or commercial horse boarding operator must give you an exemption certificate with all entries completed no later than 90 days after the delivery of the property or service. Otherwise, the sale will be considered to have been taxable at the time the transaction took place. If, within the 90 days, you are given an exemption certificate that is deficient (for example, some required entries are left blank), it will be considered satisfactory if the deficiency is corrected within a

reasonable period of time. If you do not receive the certificate within the 90 days, you will share with the buyer the burden of proving the sale was exempt.

If the blanket certificate box is checked, you may consider this certificate part of any order received from the purchaser during the period that the blanket certificate remains in effect. A blanket certificate remains in effect until the purchaser gives you written notice of revocation, or until the Tax Department notifies you that the purchaser may not make exempt purchases.

You must keep this exemption certificate for at least three years after either the due date of the last return to which it relates or the date when the return was filed (if later). You must also maintain a method of associating an exempt sale made to a particular customer with the exemption certificate you have on file for that customer.
